

Introduction to Environmental and Sustainability Science

ENVST 2050-090 (SUSL, SF)

Online

4 credits

readings & discussions in English

COURSE DESCRIPTION

The goal for this class is to have students versed in the topics of ecology and sustainability, biodiversity, and earth resources and environmental quality. The course consists of lectures, participation exercises, which will require critical thinking and data analysis, and the laboratory assignments (conducted online).

The materials have been designed to step you through the topics and if you already have some science background this class will help you make connections among scientific disciplines and ESS.

INSTRUCTOR

Prof. Zachary Lundeen| u0018763@utah.edu

Spanish CLAC Section

ENVST 3810-001

Instructor: Blanca Yagüe

Class time: TBA

1 credit course

What is a CLAC Section?

In this compact one-hour-a-week class, you will discuss in Spanish, short selections of essays/articles linked to the ENVST 2050 class.

Who can take the course?

Anyone enrolled in ENVST 2050, whose Spanish speaking skills are at the intermediate level or higher, and who would like more opportunities to communicate in Spanish.
